

4 December 1980

MEMORANDUM FOR: Director of Central Intelligence

STAT

FROM :

[redacted]

STAT

Special Assistant to the Deputy Director

SUBJECT : Transition Team Request

1. Attached is a specific new requirement from the Transition Team, received this morning. I need your guidance on whether and how to proceed.

2. This request seems within Abshire/Middendorf role and purposes mentioned in your meeting with them last week. It focuses on the question they raised: "What key issues will the new Administration be faced with in its first 60 days?"

3. The obvious candidate to do this is NFAC, under the leadership of [redacted] Lehman, but with your review of the product before dissemination to [redacted]. I have alerted Lehman, [redacted] to this, but I told them not to start anything until you decide on this.
